Cracker. Multiple-pulse quantum beats in

---

the A2S1-B2S1 bichromophoric system. The multiple-pulse excitation spectroscopy of the A2S1-B2S1 bichromophoric system has been performed. Three new multiple-pulse quantum beats have been detected. The effect of the second- and third-order multiple-pulse quantum beats between the two  $S1 \rightarrow S0$  and  $S2 \rightarrow S1$  exciton bands of the A2S1 and B2S1 molecules has been studied. Bevin, a free-speech advocate and a staunch ally of President Donald Trump, suggested during the CBS interview that he would still seek to remove some of the plaintiffs from the case. “I would rather focus on what’s happening in the real world,” he said. “Those students should be able to

---

participate in the university they attend,” he said. “The university should be able to teach the course.” Students in the case had challenged the university’s decision to ban them from their classes for flying T-shirts with the phrase “Black Lives Matter” on them. They contended that the ban infringed on their First Amendment rights and denied them equal treatment because black people have been disproportionately targeted by law enforcement. Several of the students eventually opted out of the case, and after the Supreme Court agreed to hear the case, the university allowed the students to attend their classes. “It’s a college campus
